THE CHANGE WE KNEAD NOW - BAKE BREAD FOR WORLD PEACE call for nonviolent civil action.

**Sit with us outside the White House and bake bread for WORLD PEACE
starting July 4, 2009 in Lafayette Park in Washington D.C.**

Consider taking your vacation and join us outside the White House. One or two weeks of participation would be a rewarding way to spend your summer break. If you can participate all July or all August that is really helpful. If you have the freedom to stay until every point on the petition is achieved, fantastic! What ever time you can dedicate is so important to changing the direction of the country and the world. Each participant is invited to sit in blocks of a few hours at a time throughout the day. We will try to provide free food to help keep the vigil going. This is our time to to inspire Obama to advance the positive changes we need now!
